

## ALL FISHERMEN TO BE ELIGIBLE

President Rasmussen of Hunting and Fishing Club States Requirements for Membership

## NO CHARTER IS NEEDED

Men Outside of La Crosse County May Join Association by Signing Constitution

In an attempt to clear up all doubt regarding the requirements for membership in the Hunting and Fishing association, President A. T. Rasmussen issued a statement today which may prove of interest to the fishermen outside of La Crosse county, especially to those on Lake Pepin and those in the southern part of the state and in Minnesota and Iowa. The statement is given in full as follows:

"Editor La Crosse Tribune: Several times in the past few days I have been asked the question, 'How can we live away from La Crosse and become members of the La Crosse County Hunting and Fishing association; will it be necessary for us to form local organizations and then take out a charter from your association; where can we get application blanks, etc.'"

"With your permission I will try to make this and a few other matters clear to all. First of all let me say, all that is necessary for a person to become a member of the association is to express a desire to become a member and remit the annual dues of fifty cents when a certificate of membership will be issued by the secretary. It is not necessary to have an application blank at this time. The association at its first meeting voted to hold the charter membership roll open for some time in order to allow as many as wished to enroll as charter members."

"Neither is it necessary to be a resident of La Crosse county to be a member but we invite all who are interested in the things which the association stands for to join with us, with the end in view that the same and fish may be properly protected in the future."

"There seems to have been a wrong impression abroad in some localities as to just what this association wants to do. Let me say once again that this association was not organized for the purpose of fighting any particular men or class of men and we do not intend to fight anything or anybody except the man or men who do not obey the laws of the state. On the other hand, we do intend to do all that within our power lies to see that the laws are lived up to by all. If there are defects in our fish and game laws we are going to try to have them remodeled in such a way that they will be fair to all concerned. We want to take into consideration the economic as well as the purely sportsman's viewpoint and believe that what will work for the good of one will be a benefit to the other. At the next meeting of the association which will be held April 9 there will be some questions come up for consideration which is of vital interest to all and we desire to have all become members and attend this meeting and express their opinions upon these questions. One of the things to be considered is what is the proper sized mesh to be used in the nets used for seining the rough fish in the Mississippi river. This is a subject worthy of thorough investigation and we want a fair and open discussion upon the same."

(Signed)  
A. T. RASMUSSEN, President.

## ICEJAM CAUSES FLOOD

DURAND, Wis., April 2.—Thousands of dollars damage is being done today by floods in the Chippewa river valley in the vicinity, six miles south of here, where a huge ice jam backed the river out of its banks last night, driving adjacent farmers from their homes and washing out 400 feet of the St. Paul road tracks. Efforts today to dynamite the jam have been futile.

## TAFT NOMINATES COLLECTOR

WASHINGTON, April 2.—The president today nominated: To be collector of customs for the district of Hawaii, Edward R. Stackable.

## Election Returns Received at the Tribune Tonight

## Janesville Man Gets Fish In Aeroplane

JANESVILLE, Wis., April 2.—Fresh fish every Friday by aeroplane is the latest boon to residents here who must eat fish on Friday, and Conrad McDonald, restaurant-aviator, today said the air-fish route was a permanent departure. For the past two weeks McDonald has mounted his aeroplane early Friday morning, dashed across country to Lake Koshkonong, negotiated for a basket of fish with Lake Koshkonong fishermen, and winged back to the hangar in back of his restaurant with all the pike and bullheads the trade demanded.

The inadequacy of train service, McDonald said today, gave him the idea that he might as well combine his flying machine with his business.

## BRITISH MINERS WILL NOT SETTLE

Strike Vote Is Against Accepting Terms of Settlement Offered by the Crown

## ARMY IS TO TAKE A HAND

Preparations Made by Government to Put Troops as Guard About Mines if Necessary

LONDON, April 2.—Government officials and commercial circles were agitated at noon today when it was learned that the optimistic statements of the miners' union leaders that the miners would carry the proposition to return to work by a 3 to 2 vote were not only unfounded, but that the men would probably vote not to go back. At noon headquarters announced the vote stood:

Against resuming work, 106,252. For resuming work, 101,474. The conservative labor leaders are troubled over the stand adopted by the men. They are satisfied that the maximum concession has been made that can be secured by law, and they believe the government is determined, if the union men will not return to work on their own initiative, to bring into action every resource of the government to end the strike.

The belief was strengthened by the activity in military circles this afternoon, when it became apparent that the proposition to return to work was in danger of defeat. It was stated that all of the fighting force in Great Britain is ready on signal to move to the coal districts. Premier Asquith has made it plain that if the men will not return to work he will send plenty of soldiers to the mines so that the owners can make good their boasts that they can operate with complete forces if furnished with protection.

## PHILIPPINE INDEPENDENCE

WASHINGTON, April 2.—"Little Brown Brothers" of the Philippines are to be given limited independence beginning 1913 and final independence by 1921 according to a bill reported to the house today. Another bill approved provides for maintenance of neutrality after independence.

## WEATHER CAUSES SUICIDE

STEVENSVILLE, Ohio, April 2.—Remembering to his wife that he feared the sun would never shine again, Isaac J. Heston, 52, went from his house to an outbuilding and swallowed carbolic acid. He died after explaining to a physician that he committed suicide because he was disgusted with the weather.

## PIEPER FUNERAL TOMORROW

The funeral of Louis M. Pieper, who died yesterday, will be held from Miller Brothers' chapel tomorrow afternoon at 2:30 o'clock with Rev. W. P. Christy officiating at the services. Interment will be made in Oak Grove cemetery.

## VOTE ON THEATERS

BLOOMINGTON, Ill., April 2.—"Shall the theaters remain open Sunday?" is the question that is bringing out the heaviest vote in years here today, with a victory for the playhouses conceded.

## PITTSBURG FEARS WATER

PITTSBURG, Pa., April 2.—Continued rains tonight and today again caused fear that another disastrous flood may visit the Pittsburgh district. The rivers are rising rapidly.

## LENTEN SERVICES BEGIN

"The Message of the Cross" is the general subject of the Lenten services to be held at the First Presbyterian church every night this week. Services begin at 7:30.

## SAILOR ADMITS KNABE MURDER

Seth Nichols Says He Was Paid \$1,500 to Kill the Noted Woman Physician

## HE WAS PAID BY KNIGHT

Nichols Declares He Was Accompanied and Paid by Stranger Called Knight

PORTSMOUTH, N. H., April 2.—Sitting on the iron bench in his cell at the Portsmouth police station today, Seth Nichols, formerly a sailor on the U. S. S. Dixie, coolly told the details of how he and a man named Knight, who paid him \$1,500 to commit the deed, forced an entrance into the Indianapolis apartments of Dr. Helene Knabe, eminent Indiana physician and scientist, and almost severed the woman's head with a stag handled butcher knife.

Is Cool  
With the exception of when he spoke of the woman's frightened eyes staring at the two men who had invaded her bedroom, Nichols was absolutely calm. He told the story as coolly as though he were detailing an ordinary event. He is about 25 years old; five feet, eight inches in height and weighs about 160 pounds. His face is dark and clean cut.

Nichols said he first met Knight in New York about a year ago. He said he met him again in October at the Washington skating rink in Indianapolis and that a few weeks before Dr. Knabe was murdered, was asked to "do the job for \$1,500." He declared he was being pressed for some bills and in desperation took up the offer.

Doubt Story  
While local police are inclined to doubt the man's story, they are plainly puzzled over the way he has stuck to details in repetitions of it. Three to six years in jail is the penalty for convictions for the crime of which Nichols is charged here. Local police said today that if Superintendent Holze of Indianapolis wanted him they would waive claim to Nichols.

Indianapolis Skeptical  
INDIANAPOLIS, Ind., April 2.—Police officials here today were inclined to withhold judgment as to the truth or falsity of the confession of Seth Nichols of Portsmouth, N. H., that he is the murderer of Dr. Helene Knabe, the Indianapolis woman physician.

Detective H. C. Webster, who is now working on the case under the direction of the local council of women, asserted today that he had no evidence that could be connected in any way with the Portsmouth sailor. Mrs. Robert L. Blakeman, of this city, a sister of Nichols, said that many of the details of his story are true but denied knowing that her brother was in Indianapolis at the time of the murder. Basing her statement on this fact, she asserted that it would have been impossible for him to commit the fiendish crime.

## CAR STRIKE WINS

DES MOINES, Iowa, April 2.—After a week's battle before three arbitrators the five hundred motormen and conductors of the Des Moines City railway won their fight for higher wages today, the board giving them an advance of from 8 to 10 per cent. The decision is a victory for the men and will cost the company about \$50,000 a year. A two year contract was signed.

## RIVER CHANGES COURSE

HAMMOND, Ind., April 2.—The Kankakee early today broke through its south dyke at Schneider and has formed a new riverbed through a portion of the town. The river will hereafter flow through the new channel, a mile and a half from Schneider to the Illinois state line. The entire town of Schneider may have to be moved.

## HARD COAL TRADE DEAD

SCRANTON, Pa., April 2.—With the exception of a few small washeries, not a wheel is turning in the anthracite mine industry today and the prediction is made by officials of the miners' organization that the tie up will continue complete until a settlement has been reached with the operators.

## JUMPS TO ESCAPE

ST. LOUIS, Mo., April 2.—Miss Anna Schaefer lies in the city hospital today in a serious condition as a result of injuries received when she leaped from the second story window of the free bridge social club last night, to escape three men she says attacked her. The girl's back is believed broken.

## TROOPS AT BORDER TOWN

WASHINGTON, April 2.—Responding to appeals from citizens of Delrio, Texas, President Taft today asked the war department to have American cavalry protect the village against a reported impending invasion by Mexican rebels.

## Boni Would Wed Morgan Millions

ROME, April 2.—That the present visit of Count Boni de Castellane, former husband of Anna Gould, now Princess de Sagan, is to endeavor to arrange a marriage with Miss Anna Morgan, daughter of the noted American financier, was the declaration of intimates of the dapper little Frenchman today. So far he has had little success in seeking an interview with the American banker. When he called at the hotel last evening he was informed that the financier was not in, although Morgan had reached the hotel some fifteen minutes previously.

Today Boni called again and was again informed that Morgan was out. It was reported that Morgan had expressed himself plainly on the subject of a titled son-in-law and had also asked by what right Boni was trying to arrange another marriage when the vatican less than a month ago positively refused to recognize the divorce between him and his former wife.

## ASKS MONEY TO PROTECT LEVEES

Taft Sends Special Message to Congress Demanding \$500,000 for Battle

## TOWN SUFFERS FROM FLOOD

Hickman, Ky., Inundated by Mississippi River Spring Floods Rising Over Levee

WASHINGTON, April 2.—By unanimous vote the house this afternoon passed the Ransdell bill making an emergency appropriation of \$350,000 to strengthen Mississippi levees. The bill was rushed to the senate, which is expected to pass it this afternoon and hurry it to President Taft for approval, so that the flood prevention work may be begun at once.

WASHINGTON, April 2.—Emphasizing the fact that unless the government takes immediate steps to prevent the Mississippi dykes from giving way under the highest flood on record, millions of dollars and many lives may be lost, President Taft today asked congress in a special message, for an emergency appropriation of \$500,000. This sum he recommended, be placed at the disposal of army engineers, now patrolling the levees.

## Levee Breaks

HICKMAN, Ky., April 2.—More than 100 tents arrived here today, sent at the order of Governor McCreary, but they are not enough to protect the two thousand persons now wandering through the cold and rain as a result of the breaking of the levee last night and the flooding of the entire town.

The roar of the waters as it rushed through several separate breaks in the levee could be heard for miles and a torrent of water from two to eight feet deep spread over the entire town. No lives were lost, but all inhabitants were driven from their homes and all houses were flooded.

The only means of getting about town today is by boats. The problem of furnishing food to the people is serious. Sickness is also certain to follow in the wake of the flood. The river is still rising.

The Big Four railroad is inundated for a distance of thirty miles between Vienna and Cairo by back water from the Ohio river.

## Town Reported Gone.

MEMPHIS, Tenn., April 2.—An unconfirmed report received here today declares that the town of New Madrid, Mo., was swept away during the night by a flood, with great loss of life. Communication between Memphis and New Madrid could not be established this morning.

CAIRO, Ill., April 2.—After a night during which this city was momentarily threatened with a disastrous flood, the levees at Cairo and around the drainage district on the north were safe today, although several hundred men continued strengthening them against the high waters. In answer to a call for volunteers, issued by Mayor Parsons, nearly every able-bodied man in the city turned out. Traveling men were also pressed into service, and with laborers sent in from surrounding towns a large force worked throughout the night.

JEFFERSON CITY, Mo., April 2.—Governor Hadley today received a request to order out the militia to protect property in the vicinity of New Madrid, which is flooded. The governor was advised that the fifty-three inhabitants of the town are unable to cope with the serious situation. Troops will probably be rushed to the scene.

## HEAVY VOTE IS EXPECTED TODAY

Good Weather All Over the State Brings Out a Heavy Early Vote Today

## LA FOLLETTE CONCEDED WIN

Taft Not Expected to Get Any Delegates; Both Clark and Wilson Claim Victory

MILWAUKEE, Wis., April 2.—Reports from practically every district in the state indicate that Wisconsin will endorse La Follette and the La Follette candidates for delegates overwhelmingly. But one district is said to be rolling up a majority for Taft. This is the Ninth Congressional district, the stronghold of Senator Isaac Stephenson, bitter enemy of Senator La Follette. The vote today is especially heavy and it is expected that it will break all records.

A split delegation is sure to be the result in the contest between Governor Woodrow Wilson and Speaker Champ Clark in the democratic race for delegates. Both the Wilson and Clark supporters were claiming a majority late this afternoon, although earlier reports from various sections said Wilson was apparently leading.

Voting in Wisconsin's presidential preference primary today was extremely heavy in some localities, while reports from other sections said the balloting was below normal.

A clear sky, and balmy weather—ideal voting weather prevailed. With the supporters of Senator R. M. La Follette claiming he will get the entire delegation of twenty-six over the Taft candidacy, intense interest centered in the democratic contest in which the first real test of strength between the Champ Clark and Woodrow Wilson forces, both unopposed by a local state candidate, was being made. Supporters of both men were confident of a majority of the democratic delegation when the polls opened.

Reports from a score of cities throughout the state at noon today brought statements of Wilson supporters that the New Jersey governor was leading the Clark candidacy in the race for democratic delegates. A heavy vote was polled at noon in all the districts.

Former Congressman Charles A. Weiss, leading the Clark fight in Wisconsin at Clark headquarters here at noon today expressed extreme optimism regarding the chances of Clark for securing a major part of the delegates over Wilson.

"We are not conceding a delegate to the Wilson men," declared Weiss. "Indications are that an extremely heavy vote is being cast, and we are confident of victory, from reports received up to this time."

"Aren't the republican contest, reports from every district declared La Follette leading by a large majority."

## Interest in Milwaukee

Will the socialists re-elect Mayor Emil Seidel and his majority in the city council, or will Dr. G. A. Bading, fusion mayoralty candidate of the republicans and democrats and his following oust Milwaukee's socialist administration?

This was a tense question here today with the eyes of the entire nation watching the battle of the ballots. With fair warm weather prevailing, thousands of voters flocked to the polls early, indicating the heaviest vote in the city's history will have been cast when the polls close at 8 o'clock tonight.

Supporters of Bading say his majority will be at least 15,000. Supporters of Mayor Seidel believe he will be re-elected by at least 6,000.

## Hot Windup

The five weeks campaign ended last night completed the most heated and bitter fight of rival factions in local history. Rival candidates and their supporters hurried almost every conceivable allegation in argument for ballots. The non-partisan faction condemned the socialist movement as "unAmerican" branding Seidel and his followers "red flag artists and anarchists without the interests of the city at heart." Counter-charges of "capitalism" and "graft" were hurled by the socialists who stood on past records of municipal economy. Hundreds of mass meetings, scores of rallies, red fire, brass bands and fiery speeches characterized demonstrations nightly, no expense being spared.

Betting odds of 4 to 1 today favored the non-partisan ticket, although hundreds of wagers at even money were made early in the campaign.

## ELECTION STOPS MARKETS

CHICAGO, April 2.—An aldermanic election is in progress here today. Five proposed bond issues totalling \$9,689,000 are also being passed upon by the voters. There was no grain market, owing to the holiday on the board of trade.

## KANSAS CITY VOTES

KANSAS CITY, April 2.—A heavy vote was polled in today's municipal election.

## Clark Indians' Friend In a Motion Picture

WASHINGTON, April 2.—With a number of gaudily attired Indians from Montana and Wyoming surrounding him, Speaker Champ Clark posed for the moving picture operator today. Dressed in a long black coat and a slouch hat, the speaker slowly descended the capitol steps and walked into the group of braves, giving each a hearty hand-clasp—while the operator worked the crank vigorously. After a few minutes' conversation with the interpreter, the speaker retraced his steps to the capitol followed by the Indians. The braves are here attempting to get legislation for the benefit of their fellow tribesmen.

## LIGHT VOTE IS POLLED IN CITY

Indications from Entire City Are that Vote Will Be Light in La Crosse; Higbee Will Win

## LA FOLLETTE AND WILSON

Opinion Is that La Follette and Wilson Nre Easy Winners; Sanatorium Vote Close

Advices from all parts of the city indicate a light vote is being cast in the primary election and non-partisan judicial election. The vote in the country precincts is more representative, owing to the fact that town elections are being held.

Indications today point to the reelection of Judge E. C. Higbee by an overwhelming majority. Opinion at the polls is to the effect that La Follette is carrying the presidential primary on the republican side by an overwhelming majority, and that Woodrow Wilson is an easy winner in the democratic contest.

It is the consensus of opinion among those who are watching the voting that the vote on the tuberculosis sanatorium is very close. It is the "dope" that the free bridge is a losing proposition, although a surprisingly strong sentiment in favor of it is being manifested in some of the southern wards.

Advices from Milwaukee indicate a record vote in the mayoralty contest there. At noon more than 37,000 votes had been cast, 11,000 more than the total cast at the last mayoralty election. Predictions are for the success of the non-partisan ticket, although the socialists are still confident. It is expected that Mayor Seidel will run ahead of the rest of the ticket.

Much feeling was engendered, probably to the disadvantage of the non-partisan ticket, by a lurid picture on the front page of The Sentinel this morning. The paper published a facsimile of it a flaming red and alongside of it a flaming red flag of anarchy, over both of which extended, as a heading, the words, "The Issue."

## JAPANESE OFFICIAL DIES

TOKIO, April 2.—Minister of War Ishitomo died today of consumption. He was 59 years old.

## WEATHER

For La Crosse and vicinity: Generally fair tonight and Wednesday; no decided change in temperature.

For Wisconsin: Generally fair tonight and Wednesday; cooler east portion tonight.

For Minnesota: Generally fair tonight and Wednesday; warmer north-west portion tonight.

For Iowa: Fair tonight and Wednesday; not much change in temperature.

## Weather Conditions

The storm over Texas yesterday has moved northeastward into the Ohio valley causing rain or snow at most stations east of the Mississippi river and in the southwest. Snow is falling at a few lake stations this morning and raining in the Ohio valley, middle and north Atlantic states. The weather is fair throughout the west with higher temperature in Montana, South Dakota and Wyoming; the temperature is also higher in the upper lake region and lower, generally, from Texas to the New England states.

The pressure is high throughout the southwest and low in the northwest. Generally fair weather with moderate temperature is indicated for this section tonight and Wednesday.

## LA CROSSE BOY HELD CAPTIVE BY MEXICANS?

Mrs. Conklin Receives a Message Today Saying Son Is Being Held Prisoner

## WIRES CONGRESSMAN ESCH

Asks La Crosse Member of Congress to Take Up Matter with War Department

## OTHER AMERICANS CAUGHT

Twenty Other U. S. Citizens in Mining Camp Surrounded by the Revolutionists

That Harry L. Conklin, formerly of La Crosse, together with the families of twenty other Americans, is being held captive by revolutionists at Lluvia De Oro, Chihuahua, Mexico, as a means of preventing American intervention is the belief of Mrs. Mary L. Conklin, 328 South Eighth street, following a telegram from Mr. Charles E. Nelson, Waukesha, this morning announcing the capture of Harry Conklin.

## Wires Congressman Esch

The following telegram was sent to Congressman John J. Esch at noon today by Mrs. Conklin: "Congressman John J. Esch, 'House of Representatives, 'Washington, D. C."

"Received word of the capture of son Harry Conklin, manager of the Lluvia De Oro Mining company at Lluvia De Oro, near Chio, Mexico, by revolutionists. Will you take up matter with War Department?"

"MRS. MARY L. CONKLIN." Immediate action on the part of Washington officials is probable. Mr. Charles E. Nelson in a telegram to Rev. W. A. Billings announced that he had also wired authorities at Washington, urging that prompt action be taken to procure the liberty of the Americans.

## Bloodshed may Result

A letter received from Harry Conklin yesterday postmarked March 19, brought news of Lluvia being surrounded by revolutionists. In the letter Mr. Conklin declared that he feared that American intervention would result in death to hundreds of Americans living in Mexico. A previous letter contained the information that the Americans at Lluvia De Oro were preparing to send their wives and families to the United States as trouble was expected. According to the last letter received the men were about to escort their families to Arizona when news was brought of the mobilization of 300 revolutionists at Mesquitecaldo, a nearby town, and the cutting of telegraph wires in that vicinity.

The attempt to take the women and children to Arizona was abandoned.

The announcement of the capture of the Americans at that place is believed to be but a fulfillment of the fear expressed by Mr. Conklin that this method might be pursued in an attempt to keep American troops from invading Mexico by threatening the lives of their prisoners.

## Clergyman Tells Mother

Mr. Nelson formerly a schoolmate of Mr. Conklin sent the following message to Rev. Billings this morning:

"Please see Mrs. Conklin whose son is captured in Mexico and ascertain if I can help in any way. Will telegraph Washington authorities."

"CHARLES E. NELSON, Waukesha."

A short time later Rev. Billings carried the news of Mr. Conklin's danger to his mother who immediately sent a telegram to Congressman Esch.

Whether Mr. Nelson received his information directly from Mexico is not known. It is thought possible that he may have been misled through an erroneous dispatch sent from La Crosse stating that Mr. Conklin is being held a captive.

Lluvia De Oro is a small mining town inhabited almost entirely by Americans connected with the Lluvia De Oro Mining company. The situation has been troubled at Chio, a nearby town for the last month.

## YEGGS ESCAPE CAPTURE

MONROE, Wis., April 2.—Discovered at work on the postoffice safe at Albany, Wis., near here, by the village watchman, three yegmen early yesterday blew open the strong box with nitro-glycerine before the officer could summon help and escaped on a hand car. The safe contained but \$50 in stamps and money.

## STORM CENTER IN COAL CRISIS

PRES. BAER

President Baer at left, of the Reading railroad, in conference with one of the miners. Mr. Baer is considered a dominant factor in the present dispute over time and wages, which may end on April 1st in a grand strike of all coal miners. Mr. Baer has figured prominently in other coal strikes as representative of the operators.

### VIOLENCE IN STRIKE

POTTSVILLE, Pa., April 2.—An arrest for dynamiting and a suicide today were credited to the coal strike. The state police arrested Anthony Yozanski in connection with the explosion of a stick of dynamite near the home of James Conroy, a clerk at the Eagle Hill colliery, who worked yesterday. John Dolan, 45, a mine foreman committed suicide today after worrying over the impending strike.

## STUDENTS ENJOY SPRING VACATION

High School Closes for the Week; Teachers Go Home for Short Visit

The high school is closed for the week, the students having their spring vacation. The building will be entirely cleaned and put into shape for the coming hot days. There will not be much doing in social or athletic circles the coming week about all to take up the interest of the students being baseball practice which will be held every afternoon. Many of the students are spending their vacations in taking hikes or hibernating out in the country. The latter are preparing for the hard work of the last semester.

A large number of the teachers have taken advantage of the vacation by going home for a short visit. Among those who have gone out of the city are Misses Dunn and Desmond to Madison; Miss Heideman to her home at Waupun; Miss Dougherty in Minneapolis; Miss McInerney, Michigan; Mr. Stuckert, Milwaukee; Miss Hecktoen, Westby; Miss Hackett, Baraboo; Miss Houghton, West Salem; Miss Collins, Westby.

Messrs. Libby, Elliot, Gouldin, Leach, Butler, Kline and McCormick are spending their vacations in the city, although Mr. Kline will go to Chicago the latter part of the week, where he will attend a teachers' convention.

Miss Binzel, supervisor of the domestic science department of the city schools, has resigned and will spend her time from now until June in traveling and visiting, after which she will take up domestic science work in the University of Chicago. Miss Halik has been appointed to take up the work left by Miss Binzel. Miss Halik comes well recommended and promises to become as well liked by the students as her predecessor, who was popular with all her classes.

## M'GOVERN WILL CALL CONFERENCE

MADISON, Wis., April 2.—The committee on water powers of the state senate will probably meet in conference with Gov. McGovern, special attorneys and lawyers who are drafting the new waterpower bill, some time before the special session opens. Gov. McGovern is known to favor a joint conference with the waterpower owners to discuss the tentative bill with a view to making such changes as will facilitate legislation when the solons gather. It is said to be unlikely that committees having to do with other special topics of legislation will meet before the session opens.

### TAFT APPOINTMENT HELD

WASHINGTON, April 2.—President Taft's nomination of Richard E. Sloane, former territorial governor of Arizona, to be federal judge of the new state, is being held up by the senate judiciary committee, pending an investigation of his judicial record. A number of Arizonians are expected here within the next few days to oppose the nomination.

### NEW ROLLER RECORD

MILWAUKEE, April 2.—Leon Kimm, Grand Rapids, Mich., today holds the world's one mile roller skating record, covering the distance against world amateur competition at Riverview rink here last night, 3:04 2-5. Carl Carlson, Chicago, was second and Emil Eichstedt, Milwaukee, third, in the mile event.

### Threw Wooden Shoes at Bride.

In the shower of missiles hurled after the wedded pair something struck the settlement worker with stinging force. "What on earth!" she exclaimed; then quickly added: "A wooden shoe! Who ever heard of throwing a wooden shoe at a bride?"

"Most everybody who has attended weddings in this part of town has heard of it," said the officiating curate. "It is the custom here to throw wooden shoes because at some time in her life nearly every bride has worn a pair. For the present generation they were not her Sunday shoes, nor her evening dress shoes, nor even her everyday street shoes, but around the house and maybe to the nearby shops in rainy weather she has clattered around often enough in wooden shoes to justify having a pair thrown at her for old time's sake."—Boston Herald.

### Ever Darn Your Face?

From a "Helps to Housekeepers" column: "For the woman who wishes to keep her face in good condition there are strong metal frames to be had which make the darn easier." No, it's no new beauty treatment; the composing room did it with their little hatchet. It was her "face" and not her face that the woman was to keep in good condition.—Detroit News.

### Purely Speculative.

"I have always been interested," said Little Binks, "in the utilization of waste. Now where do you suppose all these bursted tires go to in the end?" "I don't know," said the Genial Philosopher, "but if they go where most people consign 'em there must be a terrible smell of rubber in the here at."—Harper's Weekly.

## HEART FAILURE CAUSE OF DEATH

"Cap" Resser Will Long Be Remembered on French Island for Quaint Sayings

Captain Jacob Resser, old river captain and well known character of French Island, who was found dead in his cabin near Rice Lake on Monday, died of natural causes according to the verdict of Coroner Leonard Kleeber who made an investigation of the case yesterday. Mr. Kleeber said that the old man evidently died of heart failure.

L. M. Resser of Perry, Iowa, will arrive tonight to take charge of the body. Mr. Resser was notified of the death late yesterday by the coroner and sent a wire this morning that he would come at once. "Cap" Resser, as he was familiarly known to river men, came to La Crosse twenty-two years ago and for many years he was captain on Mississippi river steamboats. He was a veteran of the civil war and after his retirement from active life several years ago he lived by hunting and fishing near his cabin on the upper end of the island. He was much liked by the residents of the island.

A man of good "common sense," "Cap" Resser was known as something of a philosopher and he will long be remembered on the island for some of his quaint sayings. He is said to have several relatives who have attained considerable prominence in their different lines of business.

It is not known whether he will be buried here or in Geneseo, Ill., his former home.

### MINNESOTA PRIMARIES FAIL

ST. PAUL, Minn., April 2.—The Minnesota republican state central committee by a vote of 28 to 7 today rejected the plan of a presidential preferential primary urged by the Roosevelt and La Follette forces. The state convention to elect delegates to the national convention will be held in Minneapolis May 16, the committee again overriding the progressives who sought an earlier date.

### 1,000 STRIKERS GO BACK

CHICAGO, April 2.—One thousand of the 17,000 carpenters who went on strike yesterday were ordered back to work by the union officials today. These men comprise the civil service employees of the city and county, and men working in office buildings who are not employed by the carpenters and builders' association.

The candidate for office who "also ran" has to explain to his friends how it happened.

## PENNY SAVINGS DROP IN WINTER

Report of the Penny Savings Association Shows that 1912 Has Been Worst of Any Year

That the withdrawals of money from the penny savings of local school children has been unusually large during the past winter, is the declaration made by the report of the penny savings association, just issued by the secretary, Mrs. Robert B. Lowry. The month of March shows an increased withdrawal of over \$150.

Following is the report: Penny Savings Report During the month of March 52 more children joined the penny savings family which now numbers 2,296 children.

The deposit amounted to \$367.09 making a total of \$12,615.27 which has been deposited since September, 1909.

The withdrawals this winter have been unusually large and the month of March showed an increased withdrawal over last month of \$150.44. It is hoped and believed that as the warmer days arrive there will be less need to draw on the savings.

However, the length and severity of the winter has taught many older, as well as younger heads, the sense of independence and comfort to be derived from having even a small account.

The vacation week with its opportunities to do errands and small jobs is expected to bring the deposits of the week far above the weekly average so far this year.

MRS. R. B. LOWRY, Secretary of Penny Savings Association.

## MEXICAN CONGRESS WILL BE STORMY

MEXICO CITY, April 2.—The second session of congress since the election of Francisco Madero to the presidency, opened here today with every prospect of being the stormiest in the history of the republic. Today's proceedings were of a perfunctory nature. The president's message is expected to be read tomorrow. It is generally believed that Madero's fate hinges on what he is able to accomplish with congress. Numerous important measures are to be introduced, chief of which are the land laws. Madero, while a revolutionist, promised to seize the lands of the rich and divide them among the poor. Thousands flocked to his standard because of this promise, but many later drifted away when they found the president could not carry out his plans at once.

### PATENT CASE AGAIN

WASHINGTON, April 2.—Application for rehearing of the supreme court of the patent monopoly case was made yesterday by the government, through Attorney General Wickersham. The government asks leave to intervene and case declaring the court's recent decision sustaining the right of patentees to restrict the use and price of their products, thus creating monopoly, is of "gravest import" to the people of the United States.

### BIG VOTE EXPECTED

MILWAUKEE, Wis., April 2.—Equaling in qualities of bitterness and intense interest in the final outcome, the recent Los Angeles municipal campaign, the last lap of the fight of Dr. G. A. Bading, ex-health commissioner, leading the non-partisan fight to oust Mayor Seidel and the Milwaukee socialist council from office is on today when the largest vote in the city's history will be polled. The polls opened at 6 a. m. and close at 8 p. m.

## WASHINGTON BENDING EVERY EFFORT TO AVOID THE BIG COAL STRIKE

MARTIN A. KNAPP

ROBERT E. LEE

CHARLES NAGEL

CHAS. P. NEILL

WASHINGTON.—Federal intervention in the coal and locomotive engineer disputes is looked upon as almost a certainty. It is known that the administration is watching closely every development in the anthracite and bituminous coal situation and in the coal and locomotive engineer strike for increase in wages. One of the principal factors in the probable intervention will be the bill introduced by Congressman Lee of Pennsylvania should it be enacted and become a law. This will provide for a committee to investigate the affairs, and in this committee will be by virtue of their office, Judge Knapp of the commerce court and Commissioner of Labor Neill. The Lee bill provides for the bringing of the coal mining industry and of all transportation companies within the scope of the Erdmann law.

## STATE BOARD MAY SEND PHYSICIANS

MADISON, Wis., April 2.—Unless a new health officer is appointed, and if Dr. Spencer, the board's emissary, finds the scarlet fever situation as bad as reported, the state board of health will next week send a force of men to Kenosha to take charge of affairs. They are empowered by the law to call upon the police department or the sheriff for help and may patrol every house where the disease is found. Mayor M. D. Scholey telephoned Secretary C. A. Harper of the state board that he had appointed three physicians on the local board of health, though two were enough.

## No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so gives health and strength to the whole body.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.

## WALKING TO AND FROM THE POLLS

Perhaps a lot of La Crosse people today missed the convenience of a conveyance to take them to the polls. The law forbids. In the past there has been the familiar incident of a score of "rigs" each bearing a colored placard inscribed, "democratic," or "republican," driven to your door to take you to the voting place. The new corrupt practices act, Sec. 94-13, is as follows:

"No person nor personal campaign or party committee shall pay or incur any obligation, express or implied, to pay any sum of money or thing of value whatever, for services to be performed on the day of any primary or election, in behalf of any candidate, party or measure, to be voted upon at said primary or election; or for any political service performed on such day, or for any loss of time or damage suffered by attendance at the polls at the primary or election, or in registering for voting or for the expense of transportation of any voter to or from the polls on such day."

It will be seen that this eliminates, not only the "election wagon," but the ward workers who have been used on election days to "get the vote out," hundreds of paid "workers" being told by the political bosses to "vote early yourself." For the most part these workers were paid, not so much for getting other people to vote, but because bosses felt that the pay would make the workers themselves vote "right." With a dozen close pre-

cincts in a city, the result of an election could be frequently changed by paying a limited number of "ward workers" in doubtful wards.

It is regarded as an indisputable fact that the class of voters who, having not enough interest to vote without solicitation, must be urged to vote and carried to the polls in a rig, are the class most open to approach regarding the character of their vote. The new law eliminates that possibility, and makes the size of the vote depend upon the interest which the voters personally take in the election. It will tend to diminish the vote, but to make it more accurately represent public sentiment.

## THEIR VIEW OF "THE PEOPLE"

We quote the following from Harper's Weekly, the paper which Woodrow Wilson requested to cease giving him its support:

"So tragic a matter as the shooting of Judge Massie and his court officers at Hillsville, Virginia, make a bad setting for a smile, but if it were not for that one would smile at the recaller, confronted with this example of their theory carried out in its simplest form. Everybody knows about the mountain people of Virginia and the adjoining states, their isolated communities, feuds, clanishness, and lawlessness. The pity of the good judge's death is almost equalled by the pity of his murderers' crime. These mountain people are like children who have run wild, and very like the Highland Scotch as we read of them in Scott's novels. It is an ill task to hunt them down, and a dangerous one, too, but of course there is nothing else to do, and it is being done apparently with proper vigor."

This is on a par with the usual argument advanced against measures designed to entrust the people with some share in their own government. The reactionary journal is fond of measuring the electorate, not by the capacity of its average, but by that of its lowest stratum.

## WHAT YOU OWE IS WHAT YOU PAY

In response to inquiry received from a subscriber by letter The Tribune asked J. E. Keizer, supervisor of assessments, what is the duty of citizens who have not been provided with income tax blanks in relation to declaring their incomes. It is presumed that the supervisor has furnished blanks to those who, in his judgment, had incomes of sufficient size to warrant the belief that they will owe an income tax. In reply to the question Mr. Keizer says that it is the duty of all citizens who have, or believe they may have, incomes against which a tax should be assessed, to acquaint his office with that fact, regardless of whether or not they have been supplied with blanks. Blanks will be supplied to all who make application.

## A PIONEER IN THE FAST

No doubt the people of La Crosse have read with considerable interest of the experiences of that militant La Follette leader, Obert Sletten, a North La Crosse boy, who has become famous as the leader of the progressive crusade in Boston. Sletten has not hesitated to throw La Follette's challenge into the teeth—yes, the teeth—of Colonel Roosevelt in Boston, one of the colonel's stamping grounds. We do not anticipate that Mr. Sletten will convert Boston in time to influence the national convention, but it is these young men of the virile west whose pioneer work in the effete east must be depended upon for the ultimate conversion of that section.

## Quips and Cranks and Wanton Wiles

**Why It Happened**  
Young Orlando McBride took a general pride in his shield, gloves and uniform blue. He shone like the stars as he stood like a Mars at his post in Fifth avenue.

At the lift of his hand the vehicular band drew up in a mannerly file. And then midst applause in the orderly pause he would shepherd the fair with a smile.

For the pride of his port and his courteous retort. Even chauffeurs would frequently fall. And 'twas commonly said that Orlando was head of the squad if it had one at all.

Further up by the park in a mansion of mark dwelt wealthy Eliphalet Swope. (You have often no doubt in your bath had a bout with his pearl tinted Pulchritude soap.)

Fair Elizabeth Swope was his daughter, his hope. And his optical apple. Now mark—She had beauty and wit, and she kept herself fit. By a canter each day in the park.

I suppose you have guessed in a way at the rest. Love never was over discreet. And distinctions of caste are a thing of the past—

They had only, it seems, then to meet. But Elizabeth's roan, though of substance and bone, Was shy in the streets, and the most That she dared do was ride in the park at the side—

A mile above Orlando's post! So I'm sorry to tell that it never befell. And Orlando is still on the job. While each day that is fair sweet Miss Swope takes the air In the park on the back of her cob.

**Our Tripping Authors**  
A line by W. J. Locke runs: "He talked incessantly all the time." Oh, Willyum!  
Writes Arnold Bennett: "She won 15,000 francs in as many minutes." Pretty long session that!

Another novelist says: "Her eyes filled with silent tears." Generally they boom like billows, you know. According to another, the hero "brushed her hair with his lips." Scarcely an improvement on the old method, we think.

Another writer remarks: "Charlotte Von Stern was, when Goethe first met her, several years older than himself." But later, of course, 'twas otherwise.

"He rested his feet on the back of a chair and blew smoke rings with half closed eyes." We've seen it done with the mouth.

"Marjorie would often take her eyes from the deck and cast them far out to sea." As a caster, old Ike Walton had nothing on Margie, believe us!

## THE CARPET FROM BAGDAD

Copyright 1911—The Bobbs-Merrill Co.

While he was gone she remained seated at the table. She made little pyramids of the gold, divided the even dates from the odd, arranged Maltese crosses and circles and stars. . . . Pity, pity! Well, why should she rebel against it? Was it not more than she had had hitherto? What should she do? She closed her eyes. She would trouble her tired brain no more about the future till they reached Naples. She would let this one week drift her how it would.

George came in under the time-limit of his adventure. He had been upon the most difficult errand imaginable, at least from a bachelor's point of view. He carried two hand-bags. One of these he deposited in Fortune's lap.

"Shall I open it?"  
"If you wish."

She noted his embarrassment, and her immediate curiosity was not to be denied. She slipped the catch and looked inside. There were combs and brushes, soap and tooth-powder and talc, a manicure-set, a pair of soft woolen slippers, and . . . She glanced up quickly. She would have given worlds to have seen him making the purchases.

"You are not offended?" he stammered.

"Why should I be? I am human; I have slept and lived for days in a dress, and worn my hair down my back for lack of hair-pins and combs. I am sure that it is a very nice nightgown."

Laughter overcame her. He laughed, too; not because the situation appealed to him as laughable, but because there was something, an indefinable something, in that laughter of hers that made him wonderfully happy.

"Mr. Jones . . ."

"George," he interrupted determinedly.

"Brother George, it was very kind and thoughtful of you. Not one man in a thousand would have thought of—of . . . hair-pins!" More laughter.

"I didn't think of them; it was the clerk."

"He . . ."

"She."

"Well, then, she will achieve great things," lightly, though her heart was full.

Tactfully he reached over and swept up the money.

"Shall I ever be able to repay you?" she said.

"Yes, by letting me be your brother; by not deciding the future till we land in Naples; by letting me keep in touch with you, whatever your ultimate decision may be. That isn't much. Will you promise that?"

"Yes."

They spoke no more of Ryanne. It was as though he had dropped out of their lives completely. To a certain extent he had. They were to meet him once again, however, in the last act of this whimsical drama, which had drawn them both out of the commonplace and dropped them for a full spin upon the whirligig of life.

In due time they arrived at Alexandria. There they found the great transatlantic liner, homeward bound.

Ryanne would beat them into New York by ten days. He had picked up a boat of the P. & O. line at Port Said, sailing without stop to Marseilles. From there to Cherbourg was a trifling journey.

George knew the captain, and the captain not only knew George, but had known George's father before him. The young man went to the heart of the matter at once, and when he had finished his remarkable tale, the captain lowered his cigar. It had gone out.

"And all this happened in the year 1909-1910! If any one but you, Mr. Jones, had told me this, I'd have sent him ashore as a lunatic."

## How to be Certain of Curing Constipation

Prejudice is a hard thing to overcome, but where health is at stake and the opinion of thousands of reliable people differs from yours, prejudice then becomes your menace and you ought to lay it aside. This is said in the interest of people suffering from chronic constipation, and it is worthy of their attention.

In the opinion of legions of reliable American people the most stubborn constipation imaginable can be cured by a brief use of Dr. Caldwell's Syrup Pepsin. You may not have heard of it before, but do not doubt its merits on that account, or because it has not been so successfully advertised. It has sold very widely. Parents are giving it to their children today who were given it by their parents, and it has been truthfully said that more druggists use it personally in their families than any other laxative.

Letters recently received from Mr. E. M. Connelly, Genoa, Jct., Wis., and Mrs. E. Bolch, Hatfield, Wis., are but a few of thousands showing the esteem in which Dr. Caldwell's Syrup Pepsin is held. It is mild, gentle, non-gripping—not violent, like salts or cathartics. It cures gradually and pleasantly so that in time nature again does its own work without outside aid. Constipated people owe it to themselves to use this grand bowel specific.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

tic. "You have reported it?"  
"What good would it do? We are out of it, and that's enough. More, we do not want any one to know what we've been through. If the newspapers got hold of it, there would be no living."

"You leave it to me," said the big-hearted German. "From here to Naples she shall be as mine own daughter. You have not told me all?"

"No; only what I had of necessity to tell."

"Well, you know best. I shall do my share to make her feel at home. She is as pretty as a flower."

To this George agreed, but not verbally.

The steamer weighed anchor at six o'clock that evening, with only a handful of passengers for the trip to Naples. George had wired from Damascus to Cairo to have his luggage sent on, and he saw it put aboard himself. Without letting Fortune know, he had also telegraphed the hotel to forward whatever she had left; but the return wire informed him that Mrs. Chesoye had taken everything.

They were leaning against the starboard-rail, watching the slowly converging lights of the harbor. Fortune had borrowed a cloak from her stewardess and George wore the mufti of the first officer. The captain had offered his, but George had declined. He would have been lost in its ample folds.

"I can not understand why they made no effort to find you," he mused. "It doesn't seem quite human."

"Don't you understand? It is simple. My mother believes that Horace and I ran away together. If not that, I ran away myself, as I that day threatened to do. In either case, she saw nothing could be done in trying to find out where I had gone. Perhaps she knows exactly what did happen. Doubtless, she has sent on my things to Mentone."

They spoke no more of Ryanne. It was as though he had dropped out of their lives completely. To a certain extent he had. They were to meet him once again, however, in the last act of this whimsical drama, which had drawn them both out of the commonplace and dropped them for a full spin upon the whirligig of life.

In due time they arrived at Alexandria. There they found the great transatlantic liner, homeward bound.

Ryanne would beat them into New York by ten days. He had picked up a boat of the P. & O. line at Port Said, sailing without stop to Marseilles. From there to Cherbourg was a trifling journey.

George knew the captain, and the captain not only knew George, but had known George's father before him. The young man went to the heart of the matter at once, and when he had finished his remarkable tale, the captain lowered his cigar. It had gone out.

"And all this happened in the year 1909-1910! If any one but you, Mr. Jones, had told me this, I'd have sent him ashore as a lunatic."

The Noiseless Car

# Buick

The Car that's Ordered in  
Train Load Lots  
Silence and Power

Very few, if any, of the popular priced machines on the market today combine SILENCE AND POWER, many of them have great power but they are extremely noisy and therefore undesirable, and when you do find a quiet one it has not enough power to be a factor on the road, and who wants to be eternally bringing up the rear and taking all the dust? You don't need to take any man's dust with a BUICK, if you think you do just try to pass one on the road, a surprise is in store for you.

The BUICK is acknowledged to be the most powerful and fastest stock car that travels the highway today; in addition to these most necessary features the 1912 machines have the customary BUICK power and speed, and in addition have SILENT motors, in fact there is no car on the market to compare with the silence of the BUICK. The 1912 car is the refinement of all the years of experience of the famous engineers of the BUICK MOTOR CO., no old material or out of date ideas left over, everything right up to the minute. #### CAGLES ADOPT DESERTED BABY

Become Much Attached to Boy Mother Is Unable to Take Care of

Papers for the adoption of the baby left in their care last fall were taken out in Judge John Brindley's court Friday by Mr. and Mrs. Cagle, 816 Gillette street, and the child was named Richard Cagle.

Early last fall the child, who was then but three days old, was brought to the Cagle home by his mother who left him in the care of the Cagle family with the understanding that she would take him herself as soon as she was able. However, the child's mother has never claimed her son and she refused to do so when asked by Mrs. Cagle. Before leaving the city recently the mother was asked if she wasn't going to take her child and care for him but she said she was unable to do so.

In the meantime the Cagle family has been caring for the child and they have become as much attached to him as if he were one of the family. When the boy's mother refused to take him, Mrs. Cagle, knowing that he would be sent to Sparta and not wishing that to happen, decided to adopt him and bring him up as one of the family. The child has now been with the family for about seven months. On May 17 he will be eight months old.

The child was left in the care of Mrs. Cagle by his mother in order to avert trouble in her family. The mother informed Mrs. Cagle that she would take the child soon but a note a short time ago told her that she could not take him back. For this reason Mr. and Mrs. Cagle, rather than see the child taken to Sparta, decided to adopt him and bring him up as their son.

#### HEARST ATTEMPT TO RULE FAILS

SPRINGFIELD, Ill., April 2.—Hearst-Harrison democrats today lost their attempts to gain control of the state central committee through court procedure, when mandamus proceedings against Secretary of State Rose and county clerks in twenty-five counties to compel them to omit the names of the Sullivan democrats for state central committee were thrown out of court. Judge Owen P. Thompson of the circuit court sustained a demurrer to the petition of contesting candidates.

#### Coffinless Funeral.

The Bacchanalian funeral in Italy, which took half a day to reach the burial place, is very like what Dean Ramsay tells of bygone Scotland. There was the old maiden lady of Strathspey who bade her grandnephew see that as much whisky was used at her funeral as had been used at her baptism. The churchyard was ten miles from her home; was a short November day; and light was closing in when the funeral procession arrived. "But whaur's Miss Ketty?" asked the grave digger, and being answered, "In her coffin, to be sure," he still missed the coffin. The party, during a halt at a wayside inn, had rested it on a dyke, and forgotten it when they resumed their way; and the interment had to be postponed until the next day.

**As They See Us in England.**  
Political riots in America are carried out in a thoroughgoing fashion. Lord Rosebery tells a story of a friend of his who visited Baltimore when an election for congress was in progress. Turning in for a shave he complained to the negro barber that his razor was very blunt. "Vurly likely, sir," was the reply; "I was out last night at an election meeting."—London Chronicle.

**Best Inducement for Work.**  
The simplest affection may become a thing of beauty; the love of any human being comes to our lives as the great revealer. By this alone we hear and see. It is also the great health giver. Our work no longer continues selfish when the thought of another is constantly with us; there is always an avenue for relief from the deadening routine and tedium. Work with a thought of some one else is living work, and that which is living becomes beautiful.—Arthur L. Salmon.

There is a novel called "The Talker," and, without reading it, we infer that it has a heroine or two.

### VOTE IS LIGHT ON NORTH SIDE

Heaviest Balloting Expected After 6 o'Clock; the Fifteenth Ward Vote Is Heaviest

Up to eleven o'clock this morning the vote at the polls on the north side was very light and comparatively few ballots had been cast.

As the vote cast in an election of this kind is usually not as heavy as those cast in general elections the opinion was expressed that this year's vote will not be up to that of other years. Although the votes cast during the morning were not numerous this could probably be accounted for by the fact that many had not time to vote. During the noon hour and after six o'clock it is likely that many who were before then unable to go to the polls will have gone there to cast their ballots.

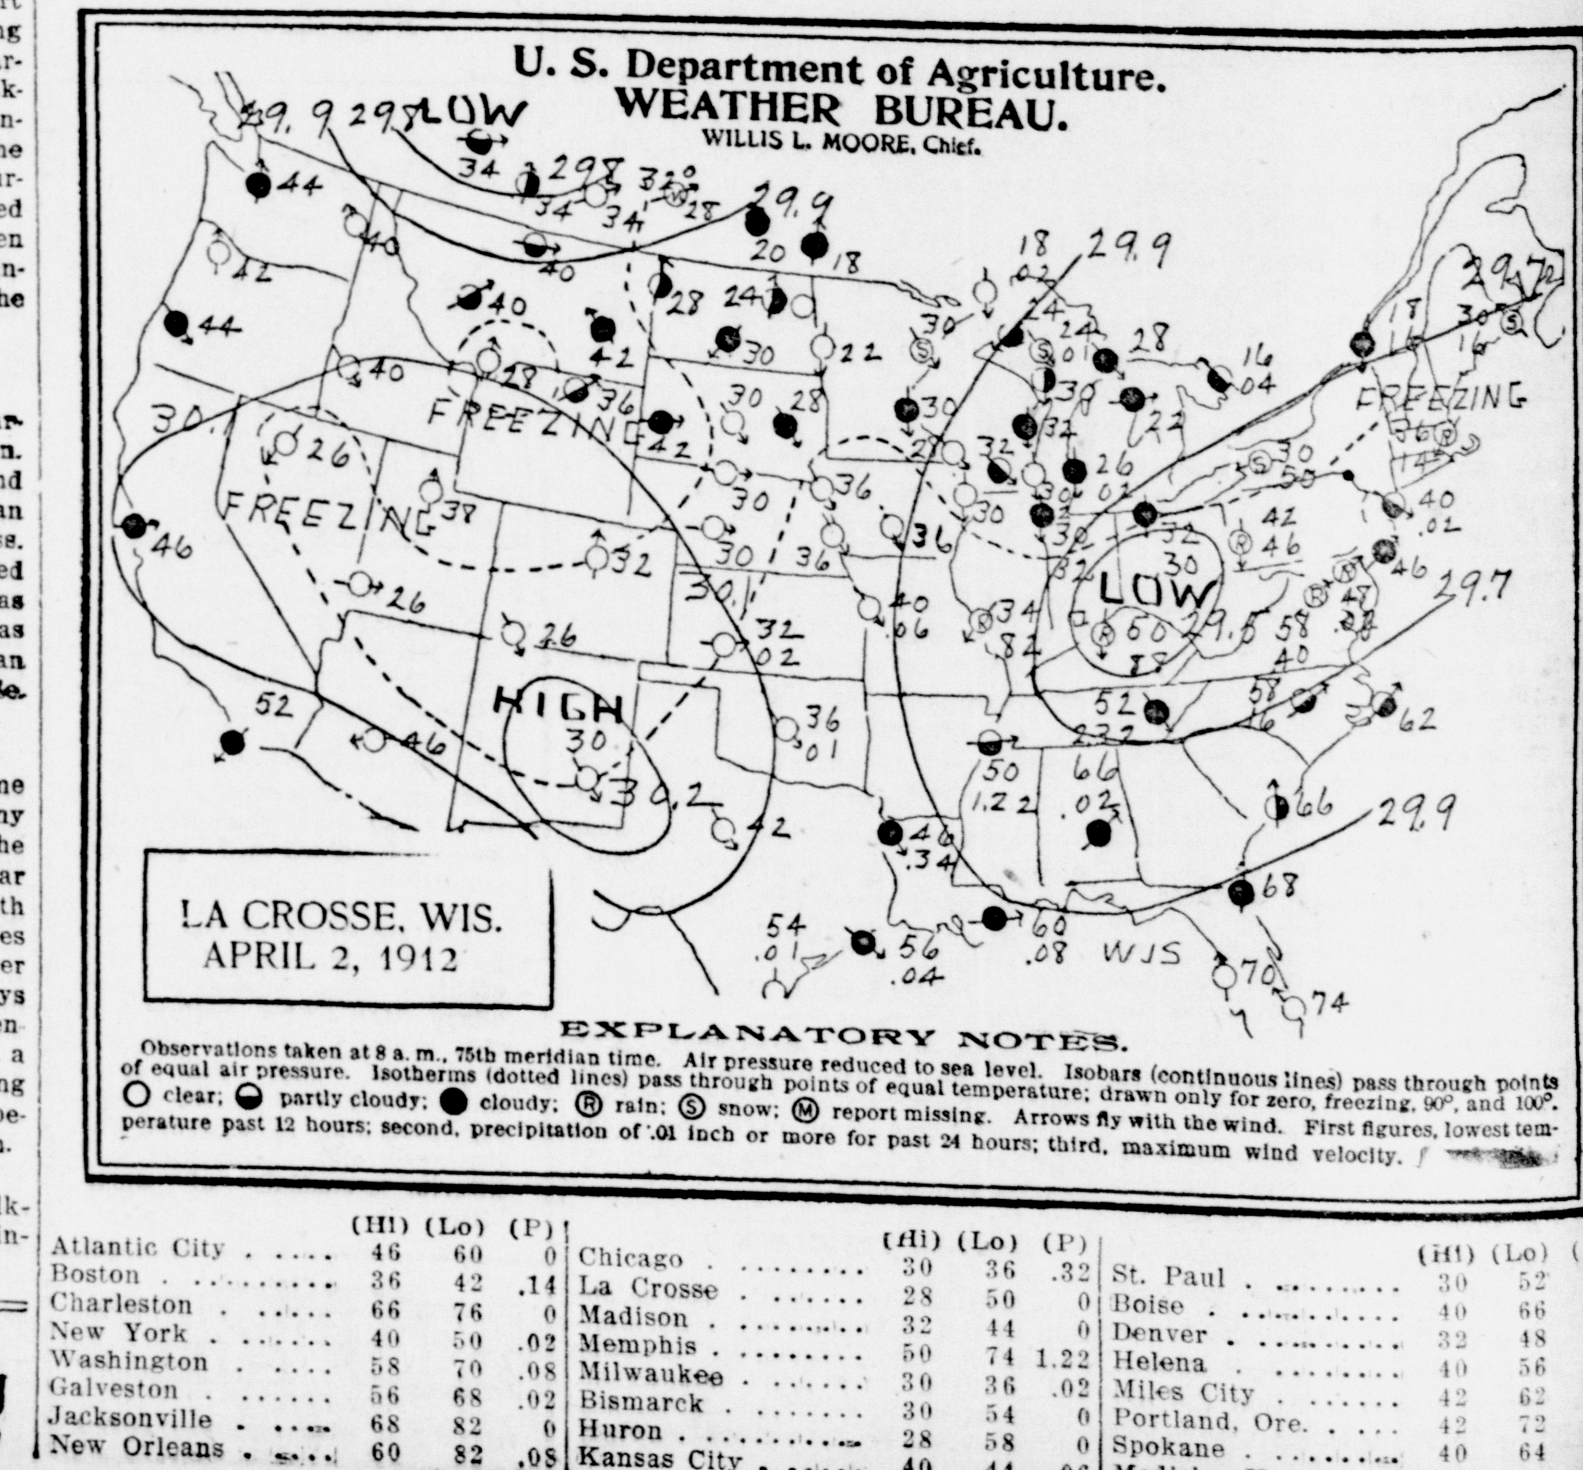

At the ninth ward booth about twenty-two votes were cast up to 10:30 o'clock and this was declared to be a small vote for that ward. Twenty-five votes had been cast at the nineteenth ward poll by eleven o'clock, this being considered a good representation, while the vote at the fifth ward booth was the heaviest of any on the north side, the ballots there numbering forty by noon. The heaviest is expected between 6 and 8 o'clock at which time the polls close.

#### GETMAN BABY CALLED

Earl Getman, aged four months, 15530 Avon street, died at 5 o'clock this morning of bowel trouble after an illness of one week. Earl Getman is the son of Mr. and Mrs. Edgar Getman. The body will be sent to Tomah tomorrow and interment will be made Thursday in that city which is the former home of Mr. and Mrs. Getman.

Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complica-  
tions affecting the general health.  
Many cases of typhoid fever,  
appendicitis and other severe dis-  
eases are traceable to prolonged  
clogging of the bowels. Regard-  
the effects of constipation, C.  
E. Ayers, 6 Sabin  
St., Montpelier,  
Vt., says:  
"I was afflicted  
with constipation  
and biliousness for  
years, and at times became so bad I  
would become unconscious. I have been  
found in that condition many times.  
Physicians did not seem to be able to  
do me any good. I would become  
weak and for days at a time could do  
no work. Not long ago I got a box  
of Dr. Miles' Laxative Tablets, and  
after using them found I had never  
tried anything that acted in such a  
mild and effective manner. I believe  
I have at last found the remedy that  
suits my case."

Thousands of people are sufferers  
from habitual constipation, and  
while possibly realizing something  
of the danger of this condition, yet  
neglect too long to employ proper  
curative measures until serious ill-  
ness often results. The advice of  
all physicians is, "keep your bowels  
clean," and it's good advice.  
Dr. Miles' Laxative Tablets are  
sold by all druggists, at 25 cents a  
box containing 25 doses. If not  
found satisfactory, your money is  
returned.

were nearly all promoted to either  
the seventh or eighth grades in the  
public schools.In the declamatory contest which  
was held Thursday evening, Otto Birr  
won first place among the boys, Dan  
Linehan taking second. Mr. Birr's  
oration was "If I were King," and  
was the best on the program. Mabel  
Baker won first place in the girls'  
contest and Frances Spangenburg  
second.The Soph, a paper written by the  
Sophomores of the high school was  
completed and an exchange was made  
with Platteville and Merrill English  
classes. The Platteville paper was  
given first by the judges. Tomah sec-  
ond and Merrill third. This has  
been a great help in the composition  
class. Platteville's paper is called  
the Exchange and Merrill's, Echo.The first nine weeks standings  
were given out. The work of the  
pupils is of thirty-six seniors, three  
failed in three subjects. The Sopho-  
mores, who number 60, six failed in  
six studies. The Juniors ranked third  
having forty-two, eight failed in nine  
studies, and of the eighty-seven  
freshmen, thirty-two failed in forty-  
one subjects. This is the best show-  
ing made during the entire year, and  
the first three classes are doing ex-  
ceptionally good work.The Armory association are posses-

## 400 KEY MEN TO QUIT

O. R. T. WILL DEMAND RAISE FROM GREAT WESTERN TOMORROW: STRIKE IS ALTERNATIVE

ST. PAUL, Minn., April 2.—A strike of the 400 telegraph operators, including many depot agents on the entire Chicago Great Western railway system, is impending.

The demand of the men, through the organization of the Order of Railway Telegraphers, is to be formally presented tomorrow by the grievance committee at Chicago to the railroad company officials.

Besides asking for certain modifications in the rules governing the work of the operators, they will demand an increased wage scale, said to be about ten per cent, and that the telephone train dispatchers be included in the schedule.

C. E. Norris of St. Paul, secretary-treasurer of the Great Western branch of the Order of Railway Telegraphers, will leave for Chicago tonight to take part in tomorrow's conference.

## ROOSEVELT RENEWS ATTACKS ON TAFT

OYSTER BAY, N. Y., April 2.—Denouncing Taft and his managers as "the bosses," and declaring that their actions in the primaries at New York and at Denver and Indianapolis were of "unmatched infamy," Theodore Roosevelt today issued a statement from his home at Oyster Bay explaining how wickedly the Taft managers acted in the recent contests. Roosevelt in the statement declared that the news had been withheld from the newspapers, and that the people were deceived.

## CONGRESS BALKS AGAINST MADERO

But Seven Congressmen Applaud Reading of Madero's Reform Message to Congress

## CAPITAL CUT OFF BY REBELS

Railroad Between Cuernavaca and Mexico City Not in Operation; Foreigners Protected

MEXICO CITY, April 2.—Rail communication between Mexico City and Cuernavaca was cut off today because of the expected attack of the rebels on Puebla. The government did not consider it safe to run trains through the affected territory, but issued reassuring messages to all foreigners in the capital. The garrison of the city has been increased to 3,500 men and the government believes it can now protect all foreigners in case of riots. It is also said that 50,000 volunteers have offered to come to the government's aid from the state of Vera Cruz.

Persons close to the administration today declared it was evident from the attitude of the congressmen and senators in receiving President Madero's message that the president could expect little aid from congress in building up the army and enacting new laws.

By actual count just seven congressmen applauded Madero when he appealed for legislation along these lines and called for all good Mexicans to rally to the aid of the government.

The president's entire message contained over 10,000 words.

Federals Come Back  
EL PASO, Texas, April 2.—Gen. Orozco's campaign against Torreon and Mexico City has been declared off, for the present at least. The rebel leader has a campaign on his hands around Chihuahua and Jimenez.

Federals under Gen. Tracy Aubert have been joined by a force of regulars sent from Torreon under command of Gen. Tellez and the combined army of 1,500 is operating today in rebel territory around Escalon and Jimenez. From Orizaba, Gen. Salinas has marched with 600 federals to the vicinity of Chihuahua, and the whole territory claimed by Orozco is menaced by federal troops.

## BILL GIVES BOARD CONTROL OF EXPRESS

WASHINGTON, April 2.—Federal control of express companies is given the interstate commerce commission and express rates fixed for a limited "parcels post," in a bill favorably reported today by the house interstate commerce committee.

That express companies must cooperate with the postal service and turn over packages addressed to consignees on rural mail routes is another important provision provided.

The limit of weight is placed at 11 pounds and the maximum rates fixed are graduated from two cents a pound for less than 250 miles up to 12 cents for more than 2,000 miles.

## TO FREE PASTOR; PROVED GUILTY

NORFOLK, Va., April 2.—Judge McLemore, of the Nansemond circuit court, today began steps to cure the release of Rev. Ernest Lyons, now serving eighteen years in the penitentiary for the "murder" of Rev. James Larry Smith. Smith appeared in court last Saturday to deny that he was murdered.

Lyons, who confessed to the murder after his conviction "just for spite," may have to stand trial for perjury.

Rev. Smith is now seriously ill from pneumonia, and Lyons' lawyers were today urged by McLemore to secure his statement legally clearing Lyons before it was too late.

## LET MORGAN ESCAPE

STANLEY STEEL COMMITTEE DECIDES NOT TO SEND TO EUROPE TO BRING BACK J. PIERPONT

WASHINGTON, April 2.—J. Pierpont Morgan will escape the probe of the Stanley steel committee of the house in its investigation of the steel trust. Today the committee decided that Morgan will not be called as a witness because of the belief that a report on its investigation could not be held up to await Morgan's return from Europe.

Chairman Stanley and the republican members of the committee had a verbal battle behind closed doors today over the question of calling Mr. Morgan. Stanley wanted Morgan summoned, but also wished to close the hearings and prepare the final report. The republicans were not particular about Morgan's appearance, but demanded the testimony of some iron ore experts.

As a compromise, the committee agreed to call four more witnesses before concluding its open hearings. They will be James Gayley, a steel trust director, and Don H. Bacon, Joseph H. Sellwood and Thomas F. Cole all of Duluth.

The latter are ore experts and will testify as to the Lake Superior holdings of the trust.

## BLAMES STRIKE FOR LOSS OF REVENUE

LONDON, April 2.—The coal strike was today charged with a loss of \$2,000,000 revenues by the government, when Chancellor Lloyd-George introduced the budget in the house of commons. The budget showed no reduction in estimated expenditures, and it carried no increased taxation. The entire surplus in the treasury, \$32,725,000 is retained to strengthen the treasury balance. According to Lloyd-George, the government has estimated that the coal strike will cause a further loss of four millions in the falling off of duties on liquor, tea, sugar and tobacco during the next year.

## POLLS TO CLOSE AT 8 P. M.

Owing to the fact that the city administration did not notice the change in the election law, which was made by the last legislature, saying that "the polls in cities of more than 5,000 inhabitants shall keep open until 8 p. m.," many of the election officials failed to receive notice today that the polls should be kept open after 7 o'clock. The former law closed the polls at 7 o'clock.

## MAY LOSE STATE AID ON SCHOOLS

All Provisions of Teachers' Pension Law Must Be Followed, Says Thompson

Unless the various towns and school districts in La Crosse county comply strictly with the provisions of the new teachers' pension law the state aid allotment for schools will be forfeited, according to District Attorney James Thompson.

The state aid for schools amounts to seven mills on each dollar of assessed valuation and would be a heavy loss to any of the towns or school districts in this county. Mr. Thompson declared that all school officials should take particular care to see that all provisions are carried out as prescribed by law.

Dates of settlement with the town, county and state treasurers must be followed or the state aid will be forfeited.

According to the new law, the district board must retain one per cent of the salaries of each of the teachers, which must be turned over to the town treasurer between June 20 and June 30. The town treasurer in turn must turn this over to the county treasurer between July 1 and 10 and the county treasurer must send in the total receipts between July 20 and 30. Should any of these officials fail to live up to this provision all of the school districts in their respective territory will lose the state aid for schools.

## FOUR NEW SOLONS SWORN AT ONCE

WASHINGTON, April 2.—For the first time in the history of this government, four senators from new states took the oath of office at one time, today. The new solons, whose swearing in gives representation in the senate of all the integral parts of the United States, were: Henry F. Ashurst and Mark A. Smith, for Arizona, and Judge A. B. Fall and Thomas B. Catron, for New Mexico.

In the lottery to determine the length of the terms, Ashurst of Arizona and Catron of New Mexico won, their terms running to March 3, 1917.

Fall's term will expire in 1913 and Smith's in 1915.

## HUGHES RESIGNS JOB

RECENTLY APPOINTED CITY SEALER SAYS SALARY IS TOO SMALL; ANOTHER TO BE NAMED

E. H. Hughes, 201 South Fifth street, who was recently appointed by Mayor John Dengler to the position of City Sealer, today handed in his resignation. The fact that the salary connected with the office as set by the common council at its last regular meeting is only \$60 a month is given as the cause of his declining to take the position.

Emil Erickson, a bookkeeper at the Novelty Implement company, and Stephen Cymaniak, a railway mail clerk, are the other two men on the eligible list, having received the next highest marks at the civil service examination. It is probable that Mr. Erickson will get the next chance at the appointment being the second highest on the list.

## LATE PERSONALS

A gold ring with setting valued at about \$15 was found this morning by a policeman. The ring was turned over to the desk sergeant to be held until called for.

H. J. Aldrich sold property to W. C. Walters today for the consideration of \$1,200.

The final hearing in the settlement of the W. W. Cargill estate was adjourned for three weeks when brought up in county court this morning.

Fred Wehrs purchased property in La Crosse county from W. C. Walters today for the consideration of \$14,000.

## SENATOR SPENDS MONEY

WASHINGTON, April 2.—Up to April 1, Senator Cullom of Illinois, has spent \$2,750 in re-election expenses according to a statement he filed today with the senate. Cullom says the chief contributors to his campaign were: William Barret Ridgely, \$1,000; Frank O. Lowden, \$1,000, and C. P. Gardner, \$5,000.

## BASEBALL MEN MEET TOMORROW

Five, Possibly Six Clubs to Be Represented at the Minny League Meeting

## ELLIOTT IS AFTER RED WING

Will Decide How Many Teams Will Join League at the La Crosse Club

Five and possibly six clubs will be represented at the Minny league meeting which is to be held at the La Crosse club at 2 o'clock tomorrow afternoon following which it will be definitely known how many clubs will be in the league. La Crosse, Winona, Rochester, Eau Claire and Chippewa Falls are sure to have representatives here, while Red Wing may also send somebody to represent them. President Elliott was communicating with Red Wing this afternoon in regard to being represented at the meeting.

W. H. Hendricks, vice president of the Rochester club, and John Spillane of the same city, came to La Crosse today, as they understood that the meeting was to take place today. They will remain here until tomorrow to be present at the meeting. Representatives from the other cities are expected to arrive soon.

At Least Four to Join  
After tomorrow's meeting it will undoubtedly be definitely known whether the club is to be composed of four or six clubs. It is certain that at least four clubs will be in the league but there may be six towns in the Minny league if Red Wing and Chippewa Falls decide to join.

The Rochester representatives announced that that town wants a baseball team and that enthusiasm there is at a high pitch. There seems to be no doubt but that the attitude at Rochester is decidedly for baseball.

President Elliott has drawn up a schedule for a four club league which he will present at the meeting tomorrow. The schedule calls for ninety games with the season opening May 14 and closing August 27 with the Sunday and holiday dates evenly divided.

The league directors will also take up the matter of what is to be done with Duluth and Superior, which towns, according to the present outlook will not be in the Minny league this year.

To Settle Release Question  
President Elliott recently met these two clubs but no settlement of the differences between the league and the clubs could be effected. It will now be up to the directors to decide what action to take in the matter and Mr. Elliott will submit to them the propositions made to him by Duluth and Superior for their release.

Another matter which will have to be brought up and decided by the directors is the amount of the guarantee for visiting clubs. This may be placed at \$50.

President Elliott announced today that Oscar Johnson, an outfielder, who has played with the La Crosse Clothing company and other fast amateur teams, has been signed by the Outcasts to try out for an infield berth on the local club. Johnson has starred in local circles both in the field and with the bat and his acquisition by the Outcasts means that several good men will be seen in the outfield this year.

Jim Crangle, the heavy hitting outfielder, who played on the local team last year, has been signed by Joe Killian, Oshkosh manager, to play with that club this season. Crangle is well known in baseball circles throughout the state as he has played in the Wisconsin-Illinois and the Minny leagues.

## MEXICAN PALACE BURNED

MEXICO CITY, April 2.—The official declaration of independence of the republic of Mexico was destroyed yesterday with other priceless documents when the palace of Iguala, state of Guerrero, was destroyed by fire. The cause of the fire has not been definitely determined and it is believed that rebel sympathizers may have fired the palace. The declaration of independence destroyed was that drawn after the successful revolt headed by former President Diaz in 1875, which resulted in Diaz' election to the presidency in 1887.

## RULES FOR COMMISSION

WASHINGTON, April 2.—Power of the interstate commerce commission to force "inside information" from steamship lines, as to their earnings, was affirmed by the supreme court. Proposed scope of the commission's inquiry into lake steamship business to secure information for adjusting rates, was approved and the commerce court decision in the matter overruled.

This is the first of the cases involving the dispute of jurisdiction between the new commerce court and the commission, now before the high court.

## WISCONSIN NEWS

POLITICS DEAD AT  
BLACK RIVER FALLS

BLACK RIVER FALLS, Wis., April 2.—Not a cent has been expended here by any of the candidates for municipal offices. There has not been a political speech made, not an editorial published in either of the city papers, and except for the large display of sample ballots in the papers, one would not know that a municipal election was pending. An attempt will be made to enforce the law as laid down by the attorney general relative to keeping the saloons closed for twenty-four hours, from midnight of Monday to midnight Tuesday. It has been customary to open the saloons as the polls close.

SISTER FOUND  
DEAD IN ICE

OSHKOSH, Wis., April 2.—The body of Sister Coronata, who has been missing from the Notre Dame residence at St. Vincent's Catholic church since Nov. 15, was found frozen fast in the Fox river on Sunday.

The woman, whose name was Anna Menke, and whose home was Milwaukee, disappeared mysteriously from the home during the early morning and up to this time not the slightest trace or clue to her whereabouts had been learned. It is not known whether her falling into the river was accidental, as she was subject to fits of melancholia, and may have ended her life under the influence of one of these spells.

AWAY GOES ALL  
STOMACH MISERY

No Indigestion, Dyspepsia,  
Gas or Heartburn five  
minutes after taking  
Diapepsin

If you had some Diapepsin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would feel fine.

This harmless preparation will digest anything you eat and overcome a sour, out-of-order stomach before you realize it.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapepsin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at any drug store waiting for you.

These large 50 cent cases of Pape's Diapepsin contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disturbance.

CARELESSNESS CAUSE  
OF MOST OF FIRES

The March bulletin of the state fire department issued by T. M. Purcell, state fire marshal today declares that 60 per cent of the fires of Wisconsin during the last year have been caused through carelessness. The bulletin contains an urgent request for co-operation upon the part of the public to aid in stamping out fires due to this cause. Adherence to the following rules contained in the bulletin it is thought will diminish loss by fire.

Abandon the use of all parlor matches and use nothing but double dipped and other forms of safety matches.

Beware of the danger of gasoline vapor, and of using either gasoline or kerosene.

Clean your chimneys at least once a year, keeping a keen lookout for all cracks, caulk them up with cement or mortar.

Do not allow oily or greasy rags or other rubbish to remain in building over night, except in a metallic can.

Employ only expert workmen for all electric wiring and allow no tinkering with such wiring by a "greenhorn" at the business.

Fear to deposit any ashes against wood or other combustible material, using only metallic receptacles with covers for them.

Go to the north pole, if you must throw lighted cigar or cigarette stubs around, and also beware where you empty burning tobacco from your pipe.

Advice About Stomach Troubles and How to Relieve Them

Do not neglect indigestion which may lead to all sorts of ills and complications. An eminent physician once said that ninety-five per cent of all the ills of the human body have their origin in a disordered stomach.

Our experience with Rexall's Dyspepsia Tablets leads us to believe them to be among the most dependable remedies known for the relief of indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membranes of the stomach. They are rich in pepsin, one of the greatest digestive aids known to medicine. The relief they afford is very prompt. Their use with persistency and regularity for a short time tends to bring about a cessation of the pains caused by stomach disorders.

Rexall's Dyspepsia Tablets help to insure healthy appetite, to aid digestion, and thus promote nutrition. As evidence of our sincere faith in Rexall's Dyspepsia Tablets, we ask you to try them at our risk. If they do not give you entire satisfaction, we will return you the money you paid us for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1.00. Remember, you can obtain them only at our store—The Rexall Store, O. T. Hart.

## NORTHWEST NEWS

FLOOD SWEEPS  
HOUSTON COUNTY

WINONA, Minn., April 2.—The melting snows on the slopes, together with high last night's rain, have sent the Root river far out of its bounds and residents along the stream in the southern part of the state declare that the turn to colder during the day prevented enormous property loss. As it is, the railroad tracks in many places are under water, while scores of farms in the lowlands are inundated.

All the way from Houston and Lanesboro to La Crescent the river is reported to have risen rapidly until early Sunday, when the drop in temperature had the effect of keeping the water at a stationary mark. As yet the train service has not been greatly interfered with, although St. Paul road officials are prepared for washouts at any time, should the warm weather return.

Traveling men reaching here today asserted that the farmers are greatly alarmed. In many cases their homes are now on islands and can be reached only by boats. Chickens and other fowls have been marooned on tops of low sheds and rubbish piles, and are being rescued by farmers on improvised rafts.

The valleys south of here are reported to be flooded with nearly two feet of water. East of Rushford the situation is not as acute as it is in the vicinity of Harmony and Preston, although the flood stage has not yet been reached. No great property loss is now anticipated, it was stated at Rushford last night, unless the temperature should suddenly rise to marked degree, or a severe rain-storm set in.

CHILD DROWNS  
WHILE AT PLAY

STEWARTVILLE, Minn., April 2.—Frank Tubbs, 14 years old, son of Charles Tubbs of this place, was drowned in the Zumbro river. With two other boys he was playing beside the river, a mile below town. They loosened a cake of ice and the Tubbs boy and Lyle Smith started on a trip down stream. Both boys slipped off, but Smith clambered back and got out. The river was dragged and the body recovered.

FLOOD CAUSES  
HEAVY DAMAGE

CEDAR RAPIDS, Iowa, April 2.—The Cedar river is up. R. J. Swett, a bridge contractor of Des Moines, lost \$5,000 when twenty-three feet of span over the channel of the river went out. An ice gorge jamming against the Rock Island bridge has moved it out of line and trains have been ordered to detour by Waterloo. Bridge men say the center span will go out.

SECOND WIFE STOPS  
A FOURTH MARRIAGE

ST. PAUL, Minn., April 2.—Accused of having three wives, on a bookkeeper's salary, and of planning to be married to a fourth, John L. Edgar was arrested in St. Paul yesterday and was in the Minneapolis municipal court on a charge of bigamy. A letter, which the police say was written to a prospective fourth wife and accidentally mailed to wife No. 2 in Detroit, Mich., caused Edgar's arrest.

THIRD AND MAIN  
STREETSDRUNK, HE KILLS  
3 YEAR OLD SON

PERTH AMBOY, N. J., April 2.—A formal charge of first degree murder was lodged against Frank Andrewich, a glant iron worker, and he was held without bail for trial. His victim was his own 3-year-old son, John, whose brains he had dashed out against the floor when his wife, whom he was trying to assault, eluded him. Andrewich came home and demanded his supper. His wife tried to pacify him and he started for her. She eluded his grasp and he turned on the child.

WANT CONTROL OF  
LOWELL STRIKE

LOWELL, Mass., April 2.—The three largest labor organizations in the world, bitter rivals, strenuously vied with each other today in controlling the striking cotton mill operatives who number between 15,000 and 20,000. National organizers representing the American Federation of Labor and the United Textile Workers of America began campaigns of organization in opposition to the Industrial Workers of the World.

CLEANSES THE HAIR AND MAKES IT  
FLUFFY, LUSTROUS AND ABUNDANT

Never any falling hair,  
itching scalp or dandruff  
if you use a little Danderine.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine.

The very first application cleanses the scalp, stops itching, destroys and dissolves every particle of dandruff and prevents the hair from falling out.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25 cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will

be an appearance of abundance; freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes, but really new hair—sprouting out all over your scalp—Danderine, we believe, the only sure hair grower; destroyer of dandruff and cure for itching scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

## STARTS SOMETHING; OTHER FINISHES IT

With his eyes decorated by a beautiful black shade caused by coming in contact with the fist of Peter Gallagher, Charles Bubbis when arraigned before Judge E. Cronon in police court yesterday asserted that he had received enough punishment and deserved to be discharged. Judge Cronon however decided that a \$12.50 fine was more proper.

According to the story of witnesses, Bubbis started a quarrel with Gallagher Sunday afternoon and addressed him in abusive language, declaring that he would whip Gallagher.

The latter warned him against "starting something he couldn't finish," whereupon Bubbis became infuriated and made a rush at his opponent, only to be sent crashing to the floor. He arose a second later and continued the fight, until he was hopelessly beaten. Then he is alleged to have started in search of a policeman and to have had his opponent arrested, but upon arriving at the police station was also detained. Gallagher immediately pleaded guilty and paid his fine.

## OFFICIALS DENY "FINDING" MONEY

Story that \$57,000 of City's Money Was Lying in the Banks, Unknown to Anybody, Untrue

## BANKER WRITES COME BACK

Commissioners Knew All the Time How Much Money Is in Sinking Fund

Aroused to action over a story that gained wide circulation in the newspapers of the northwest and taken from one of the local evening papers to the effect that \$57,000 of the city's money was recently "found" by City Comptroller W. J. Fries after it had been lying in the banks of the city unknown to anybody, City Attorney Schubert issued a statement denying that the city officials did not know of the money held by the banks to the city's credit.

The story was so generally circulated that it came in for comment in the Chicago Banker, a magazine devoted to the interests of banking. One of the local bankers in an attempt to set the city officials and bankers of La Crosse right in the eyes of the bankers and business men of the country wrote an answer to the article which was printed in the Chicago Banker as follows:

"Bankers Aroused by Newspaper Story

"General suspicion of the character of the news they are served in the daily papers is aroused in the minds of La Crosse bankers due to the alleged finding by an official of the city that \$57,000 municipal money was lying in the banks, all unknown to anybody, except the bankers. They are aroused by the story reprinted in various periodicals in good faith. One of the bankers believes the matter of enough importance to come back. He writes:

"These are the facts: Many years ago a sinking fund was established here and taxes assessed to take up specified issues of bonds. This money is invested in bonds and on deposit in the banks at interest, and during this period \$57,000 has been accumulated in interest on the sinking fund investments, and the city officials knew they had it all the time.

"Prior to the establishment of the sinking fund there were bonds issued without a sinking fund provision, and as the sinking fund assessments will be sufficient to take up the bonds issued since that fund was established, it occurred to our efficient comptroller that he could use the \$57,000 accumulated interest to pay the bonds maturing that did not have a sinking fund provision."

## Schubert's Statement

City Attorney Schubert's statement is given in full as follows:

At the last regular meeting of the council a resolution was passed calling in for payment \$34,000.00 of outstanding bonds dated 1885 and 1886 for which no sinking fund had been provided. This elicited the information that a surplus of \$57,000

## WALKED AS WELL AS THE DOCTOR

Cure of a Case of Rheumatism That Did Not Yield to Ordinary Remedies.

There are many remedies for rheumatism. Most of them are considered successful if they relieve the pain and stiffness. That means a temporary suppression of the symptoms while the disease remains in the blood to appear again on the next rainy day.

In rheumatism the blood becomes thin. Until it is made rich and red again the rheumatism will prevail. Strengthen the blood with Dr. Williams' Pink Pills for Pale People and it will throw off the rheumatic poison and the disease is cured.

Mrs. C. G. Dean, of No. 916 Elm street, Quincy, Ill., says: "A few years ago I was greatly afflicted with rheumatism. The trouble came on in the fall. I consulted our family doctor and on my way home could hardly push one foot ahead of the other. The next morning I was worse and in great pain. All at once something seemed to give away in my back on the right side and I was bent nearly double. I could not straighten up and was suffering intense pain. For six weeks the doctor called nearly every day but did not cure me. I had spells of nervousness, which nearly drove me mad. If I would lie down on the bed, I could not get up unless lifted and placed on my feet. So for six weeks I sat up all night in my chair and during the day moved about as well as I could. I could hardly walk and when I did it was very slowly and if I took a quick step the pain would catch me and it seemed as though I would fall. I slept but little and could eat practically nothing. One day I told the doctor that he need not call on me any longer and then sent for a box of Dr. Williams' Pink Pills for Pale People and gave them a good trial. Some time later the doctor called and could not believe placed on my back. He said my cure was a wonderful thing. I have been in good health since."

A new edition of our booklet, "Dis-eases of the Blood," will be sent free on request to anyone interested.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50c. per box; six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

existed in the Sinking Fund. It appears that quite a few people are of the opinion that this money had been lying in the banks for years without the knowledge of the city officials or the banks in which the money was deposited. This is not the case. The commissioners of the Sinking Fund knew at all times how much money was in the Sinking Fund and in the banks and found that there was a surplus of \$57,000.00 in the fund which could be used in redeeming outstanding bonds. The city annually appropriates an amount equal to five per cent of the bonded indebtedness for the redemption of bonds when they become due. This money is turned over to the commissioners of the Sinking Fund consisting of the mayor, city clerk and comptroller, and invested by them in certificates of deposit and city of La Crosse bonds. The interest from these investments has continually been added to the fund and this is what created the surplus.

The balance in the Sinking Fund at December 31st, 1911 was \$397,410.42; whereas the Sinking Fund requirement would be met by a balance of \$340,175.00; surplus from accumulated interest, \$57,235.42.

This matter has been under consideration by Comptroller Wm. J. Fries for sometime and he has examined the question very thoroughly going back over all the outstanding bond issues to determine how much was necessary to meet the outstanding obligations. His statement was checked by the auditors who examine the city's books and found by them to be absolutely correct.

## SOCIETY HOSIERY

THE SILK STOCKINGS WITH  
THE STYLE, WEAR AND FIT

Coles Phillips, the famous New York artist, has said woman must lavish most of her attention on the shoes and stockings that dress her feet.

He is right. No woman of today can afford to wear ill-fitting shoes and shoddy stockings, and no shoes, however expensive, look well over a flimsy, cheap looking hose.

**SOCIETY STOCKINGS**  
Are woven of heavy pure silk, are exceptionally long, with reinforced heel, sole and toe and double knit garter top. They have all the durability of the old time lisle combined with the beauty of the silk. In their weaving the greatest care has been taken, with the result that there is no unseemly bagging at the ankle or instep.

**SOCIETY STOCKINGS** look their part—they are fine, sleek and thoroughbred.

**SOCIETY HOSIERY** is not on sale at the shops, but must be purchased from us direct by mail. In this way we eliminate the dealer's profit, greatly reducing the cost to you and also prevent the substitution of an inferior grade of hose.

These stockings positively will not run; they come in all colors, and will be sent by mail to any address, all charges prepaid. If on inspection you are not satisfied—you to be the sole judge—your money in full will be refunded.

Special prices to introduce our Society Silk Hosiery good for ten days only.

**The Dingo.**  
The dingo is a species of wild dog found in Australia, and is to that country what the wolf is to eastern Europe and the coyote to America. Hunting in packs, he is a perpetual menace to Australia's chief industry, the breeding of sheep. Owing to his cunning and swiftness the dingo is able to hold his own in central Australia, and is likely to do so for a long time to come, notwithstanding the fact that a generous price is set upon his head by the government.

A good night's sleep is one of the few things people like that is good for them.

## FAN-ATICAL FANCIES

All the major league twirlers are now doing their best work to convince the managers that they are the men to have the distinction of pitching the first game of the season. Either King Cole or Lew Richie will toe the slab in the opening game for the Cubs.

According to information from Bay City, Mich., Darby O'Brien, former manager of the Duluth team, will be the pilot of the Southern Michigan league club this year. Darby probably thinks that Duluth is out of baseball and he wants to be in the game again.

"Bugs" Weidell twirled four innings of the game between St. Louis Cardinals and Milwaukee yesterday and two runs were scored off him while he was on the slab. Chappelle, former Eau Claire player, played in left field for the Brewers and he made two hits, one of which was for two bases.

"Russ" Lavold has been chosen as one of the trustees of the Clothing company club to succeed Pederson.

Charlie Weigert, who was elected the 1912 captain of the La Crosse Clothing team, but who was signed up by the La Crosse Outcasts, has been succeeded by "Mart" Pederson, veteran infielder.

## WHITEWASH COAT FOR BIRMINGHAM

Tigers Blank Alabamans,  
with Cobb Starring as  
Flash on Bases; Taft  
Gets Cub Pass

BIRMINGHAM, Ala., April 2.—

The Tigers scored their first shutout of the season with the Birmingham team yesterday, the final score being 4 to 0. Cobb featured the game with his base running. Perry, recruit outfielder, got a home run. Hughie Jennings announced today Recruit Vitt would be seen in the opening game at shortstop. Donnie Bush, holdout, has failed to come to any agreement with the Tiger management and Jennings has given up hope of his reporting.

Cubs vs. Colonels

LOUISVILLE, Ky., April 2.—The Cubs expect to get their last practice against the Colonels today. If they do it will be their third contest out of six scheduled games. The teams leave tomorrow for a two game series in Terre Haute.

Taft Gets Pass

CHICAGO, April 2.—President C. Webb Murphy of the Cubs today sent Cub pass No. 1 to President Taft, together with a cordial invitation that he make use of it.

Card-Brown Game Off

ST. LOUIS, Mo., April 2.—Heavy rains caused the postponement of the third game of the Cardinals-Browns series today.

Barney Sees Pennant

HOT SPRINGS, Ark., April 2.—For the first time on record President Barney Dreyfuss of the Pirates predicts prior to the opening of the season that his team will take the pennant. He said today: "I never felt more confident in my life, and I feel safe in violating my hitherto inviolable rule in claiming a flag until that flag has been won on the playing field."

Sox Sore at Texas

FORT WORTH, Texas, April 2.—With this their last day in Texas, the White Sox will not be sorry if they never train in the Lone Star state again. Rain, snow, blizzard and famine have pursued them continually. "We'll train on Sahara next spring," said Manager Calahan today. The Sox will attempt to play the locals today.

DECISION IN 15 ROUNDS

ST. JOSEPH, Mo., April 2.—Horace Bronson of Indianapolis was given a decision over Clarence English of Omaha in a 15 round bout here. Bronson had English in bad shape at the finish.

MARATHON AT BERLIN

BERLIN, April 2.—The international marathon originally proposed for Monaco, France, will be held here May 26. Johnny Hayes, winner of the last Olympic marathon games, and Pietro Dorando, his closest competitor, are entries.

## LEAGUE DIRECTORS ELECT OFFICERS

At a meeting of the directors of the local baseball association yesterday the following officers were elected for the coming year:

President, John Miller; vice president, Frank Sisson; treasurer, Al Langenbach; secretary, Walter Simonon.

President John A. Elliott of the Minny league returned this noon from Duluth, where he held a conference with the Duluth and Superior clubs, and he announced that no settlement had been effected with those clubs. The propositions submitted by Mr. Elliott were not accepted by the two northern towns the president would not agree to the propositions offered by Duluth and Superior.

According to the sentiment of the two northern towns it seems likely that they will have no league baseball there at all this year. At the present time they intend to play independent ball and there is apparently no foundation to the report that they are to enter the Northern league. Both Duluth and Superior want to secure their release from the Minny league, but they are not willing to buy their release and pay up their indebtedness. Superior is not in debt to the league, but they will not pay for their release.

There is a possibility that the Minny league may yet be composed of six clubs and President Elliott is working to bring about this result. Attempts will be made to get Red Wing and Chippewa Falls into the league and Mr. Elliott expects that representatives from those two cities, La Crosse, Rochester, Winona, and Eau Claire will be at the league meeting Wednesday.

## FITZ LICKS MAN WHO WOULD FLIRT

CHICAGO, April 2.—Although fifty years and "all in" so far as the roped arena is concerned, Bob Fitzsimmons keeps his arm in trim. "I'm getting old, but I'll never be too old to fight when a lady is insulted," said the former horseshoer, today, in commenting on the wallowing he delivered to a young "masher" in a local hotel last night. The man was severely chastised by Fitzsimmons after he had made "Goo-goo eyes" at Miss Myrtle Byrnes, the former fighter's vaudeville partner. Fitzsimmons dragged the man from the dining room and administered a spanking when they got to the sidewalk.

## MANDOT WINS AFTER HARD FIGHT

MEMPHIS, Tenn., April 2.—Joe Mandot, "southern lightweight champion," was today hailed as one of the greatest fighters in the business, following his wonderful exhibition of grit and determination in his fight with Owen Moran last night. Mandot was knocked down in the second round of their ten round go. He was groggy and his lips were badly cut. Then he fought eight up-hill rounds and wound up with two furious stanzas, in which he clearly out-classed the Englishman, landing two blows to the latter's one. The decision for Mandot was a popular verdict.

## JEANNETTE HAS EASY VICTORY

NEW YORK, April 2.—Joe Jeannette's chest completely fills his vest today, following his easy victory last night off Griff Jones, a hard hitting heavyweight. Referee Dan Tonne decided at the end of the fourth round that Griff had enough and stopped the bout. Jones was on the floor twice and was badly cut about the eyes, nose and lips.

## WALLOP ENDS BOUT

RACINE, Wis., April 2.—Young Mahoney, the local middleweight, scored a clean knockout over Jack Williams of Milwaukee, in the fourth session of what was scheduled to be a ten round bout here last night.

## WESTERN FOOTBALL TO BREAK ITS BONDS

CHAMPAIGN, Ill., April 2.—The reign of football rules made by easterners to fit conditions in eastern colleges and arbitrarily fastened on to western schools, will be past if the big universities of the west take the advice offered by President James of the University of Illinois. After appointing a special faculty committee today to meet other committees regarding the proposed break from the "Big Eight." President James advocated a general conference of at least ten big schools which shall break loose from the east and make all its own rules.
